De Passage, a unique heritage destination

The Passage is the cornerstone of the new city district 'De Vrijheid', an urban renewal project that restores the neighborhood's identity with a central location and significant heritage value for Ronse. In 2010, the former Saint Martin's Church was fully renovated into an event venue and culinary hotspot. Located next to Koning Albert Park and offering views of the Saint Hermes Basilica, the Passage provides a unique and centrally located base for our guests. With the riders passing right by the park and the podium just around the corner, you won't miss a moment of our top athletes' performances!
